

Kyrie snow

you were an elephant in your last life
secretly thought of the word wife

② and yeah, so i'm guilty of desiring ^{you} ghosts
③ and yeah, so i'm guilty of desiring you as well

can't work...
but i just can't help myself.

the sweetness of your real voice
sneaking out when you're asleep sounding
it kills me

i'm really fucking dry here.

kyrie snow

you were an elephant in your last life
strands of the virgin in
~~and you're off famous somewhere~~

you were an elephant in your last life
~~never thought twice of the word wife~~
and you're off famous somewhere
and you're off famous somewhere

this moderation thing
has gotten a little out of hand

all alright in the city of angels
so much history

all alright in the crescent city
carry a strand of the virgin in last life

just a ship out of fort Knox
would you let somebody else in?

Kyrise snow - where did you go?
i felt like i was the only one
connect the dots →

ça va? je voudrais

i was so critical of you
it was the last thing you needed
but you were critical of me, too.

like a dove and a fast track
competition of the stubborn two.

goldilocks found the mean
~~best~~ ~~castles~~
helped cars come clean

did that guy just call me a stunner?
bloody mung

he found her alive in the brush
of booze and utofine
