~~sarah~~ never left the southside
in orange she'll ever be
laughing chandelier lights
only she can see

only god can hear you sing
when you survive on warmth of trespassing
(once there was a better place ~~to be~~)
spend the weekend shivering
cause there's no ~~more~~ space at ministry
only god can hear you sing

after thirty sleeps in jellotown
something with a knife went down
cleopatra's drawing circles
on her bloody gown

by the time the CO comes around
she's made her peace with lost and found
sarah's floating fixtures *while she's*
lying on the ground

only god can hear you sing
when your survive on tricks and shoplifting
there used to be a better place ~~to be~~
spend the weekend on your knees
because you just don't have the tools you need
only god can hear you sing

what
(you smart) rascal with tools you need

push
the only ~~forward motion~~ to be found
was at the ~~school~~ clinic
Emmanuel tore down
pick em up, move em around
the only salvation to be found
was at the clinic
Emmanuel shut down
take away what net there ever was
take away what net there ever was
