---

What a funny planet  
Astrid pokes  
over her root beer float

is that the way you have it  
sad old folks  
that's not the way we left it

turn away for a sec- well that's it  
beg a second chance- enhance it  
run the routine through  
you finish what you do

turn away for a sec- well that's it  
beg a second chance- enhance it  
is that all that can do?  
run your old program through?

What a funny planet  
Astrid pokes  
and before she can laugh  
she's got me on the ropes

can't say it doesn't matter  
eternal mope  
that's not for lack of ladders

look at me for a sec- and face it  
here's your second chance- embrace it  
run a routine through  
clean your memory new

look at me for a sec- and face it  
here's your second chance- embrace it  
believe in what you do  
(run) your new program through

darker dreams and penguin bites  
rocked your whole world into night

like a bad thumbdrive gave you a ride  
~~wanted~~ you in two boolean knife  
split
