

STARDUST

I don't care what's going on down there  
my mama taught me how to love  
shout to you from beneath the waves  
this message from above

*i dont care about whispers and staves  
messages from up above  
my mama taught me how to love*

legs for miles  
my starry crush  
a kiss and something from behind  
we're stardust, baby  
stardust

i don't deserve you cause I feel  
we can't let them see  
I've already let you down  
what's that say about me?

legs for miles  
fishnet dream  
let's go down together  
we're stardust baby  
stardust

*my* *go for a ride*  
~~let's go down together (let's go down and take a ride)~~

legs for miles  
my starry crush  
a kiss and something from behind  
we're stardust, baby  
stardust

stardust  
stardust  
stardust
